NAME OF THE VALUE ADDED PROGRAM: Chemical Soil Analysis

Session: 2023-24

Syllabus

Unit –I

A) Method of collection of soil and plant samples for their testing

objective of soil testing, apparatus and materials , procedure for soil testing , collection of soil sample, profile studies of deep black soils (vertiols), requirements of vertiols, pedogenesis of vertiols.

B) Creation of spatial variability maps of soil nutrient using geo-stastical tool

Methodology, determination of pH and electrical conductivity in soil samples, (procedure, electrical conductivity).

Unit –II

A) Determination of organic carbon contents in soil, Determination of available Nitrogen in soil, Determination of total Nitrogen in soil ,Determination of phosphorous in soil sample

B) Determination of potassium in soil and plant samples, Determination of sulphur content in soil

Unit-III

A) Determination of micronutrients in soil and plant sample by atomic absorption spectrophotometer , estimation of Boron in soils,

B) Estimation of microbial Biomass carbon in soil(method , reagents, procedure)

Unit -IV

Determination of soil aggregates

(water stable aggregates, procedure) **Determination of Bulk Density of soil by Core Method(bulk density , Principle, apparatus and accessories, procedure)**

Subject: Permission to start Short Term Certificate Course in "Vermicomposting."

Respected Sir,

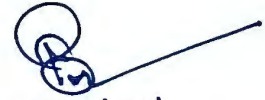

With reference to the above cited subject, I would like to state that our college wants to start Short Term Value Added Course in "Vermicomposting". It is necessary to the student in today's globalized scenario for self-employment and this enables student to familiarize with the extra small scale financial support other than agriculture. It is also useful to student for gaining the additional skills in the subject. The details of the course are attached here with. Kindly permit us to start the said course.
